AFT received a specialty crop grant to fund a pilot between 4 SUNY schools to increase the procurement of NYS grown and minimally processed produce.
Data Collection

- Sodexo and/or university employees would pull the purchasing reports through our distributors which includes both small and large organizations (i.e.: Mentos Produce, Purdy and Sons, Carioto and Sysco) to determine the amount purchased from NY sources

- The challenges included:
  - Time consuming.
  - Difficult connecting with distributors and vendors.
  - Farm specific data is not available.
Successes: Data Collection

- This initiative has identified the need for distributors to create a computer program which can track the NYS produce on a farm specific level.
- Once accomplished, the campus will have direct access to tracking local food sales.
- The Center for Technology and Government at UAlbany is now partnering with AFT to investigate a tracking program.
Sourcing

The barriers to sourcing NYS produce include:

- Pricing
- Location
- Liability insurance and 3rd party audits
- Non-uniform standards and quality
- Student perception
- Out of state preferred distributors
Successes: Sourcing

- New sources of produce including:
  - Apple Varieties
  - Watermelon
  - Mushroom
Successes: Procurement

- Increased purchases of produce including:
  - Watermelon 2717 pounds more
  - Corn 500 pounds more
  - Apples 27,200 pounds more
  - Squash 461 pounds more
  - Apple cider 564 gallons more

- Locally-grown onions by 151%

- Seven times more cubed butternut squash
Successes: Procurement

Fall 2013
Total Local Produce Purchases
Carioto: **18.35%** of purchases were from New York State

Fall 2014
Total Local Produce Purchases
Carioto: **30.18%** of purchases were from New York State
Successes: Procurement

- SUNY Oswego has purchased 1,472 locally sourced watermelons for a total of $9,500.00 local dollars put into the economy.

- We purchased from: Emmi Farms, Reeves Farms and Deconinck Farms

Did You Know….
- Milk is New York’s leading agricultural product and is produced all across the state.
- New York ranks second nationally for producing apples.
- About 23% of New York’s land area is used to produce a wide array of food.
- New York ranks third nationally for the production of wine.

Visit www.agriculture.ny.gov for more New York State agriculture facts.

In your opinion, do your food purchases affect the local economy (local businesses and jobs)?

- 74% Benefit Local Economy
- 21% No Effect
- 2% Negatively Affects the Environment
- 3% Not Sure

Previous Year:
- Not Sure 25%
- No Effect 6%
- Negatively Affects the Environment 9%
- Benefits Local Economy 60%
Assessment

- Your county: 20%
- 50 miles: 27%
- 100 miles: 12%
- 150 miles: 4%
- 200 miles: 3%
- 250 miles: 7%
**Student Survey**

- **Pre-project**

  Does the dining hall serve local food?

  - Yes: 61.8%
  - No: 30.4%
  - I don’t know: 7.8%

- **Post project**

  Does the dining hall serve local food?

  - Yes: 26%
  - No: 13%
  - I don’t know: 61%
Assessment

- Pre-project

  Does it matter to you where your food is grown?

  - Yes: 89%
  - No: 11%

- Post project

  Does it matter to you where your food is grown?

  - Yes: 38%
  - No: 62%
### Student Survey

**I would be willing to give up a favorite food if the dining hall couldn't purchase it locally**

<table>

Outcomes

- Identified new local produce to procure.
- Identified need to utilize better tracking methods.
- Year over Year local purchasing increases.
- Increased awareness of issue with food service team.
- Successful events showcasing products.
- Increased ability to be creative among kitchen staff.
- Increased ability to leverage grant funding.
Next Steps

- Continue to improve awareness and communication of initiative
- Improved tracking of products
- Strive for “real time” marketing
- Replicate model throughout the state
Thank you!
